

Fast, quality, cost saving repair of our carbide tooling! We offer a fast economical service for re-sharpening your blades (any size as well as any rotary bur carbide tools.

We have been in the tool re-sharpening business for over 40 years. When we receive your order, they are cleaned and inspected and an evaluation of the work necessary to repair them is sent out, normally the same day received. We fax or email a quote to your for your approval, for a verbal or P.O. release.

Tools will be returned to you approximately five workdays in our shop after release.

Small blades are \$10.00 and large blades, up to 4" are \$15.00.

We currently sharpen for several equine denistry services and have received nothing but praise for our service. Our service is faster and more economical than other services.

If interested, please feel free to call or fax us. We also have a website www.a1toolresharpening.com, showing a list of burs, end mills, roughing mills, etc. that we sharpen.

Thank you in advance for your consideration.

Respectfully,
John Amon
